

F203

Striped Fiberglass Double Sided Tape

Composition:

Applications:

• Ideal for permanent adhesion of signs, acrylic, woods, aluminum, laminates, stainless and high carbon steel.

Features:

- Strong viscosity, easy to peel off, wear-resistant.
- The reinforced fiberglass yarn provides the filament tapes high tensile strength.
- Suitable for low surface energy.

Technical Data (average values)

Backing material	Striped Fiberglass
Total thickness (without release paper)	0.14mm
Size	Customized
Color	Transparent
Type of adhesive	Pressure Sensitive Adhesive(Solvent-based)
Temperature resistance range	80℃
Loop tack	≥30 #
Holding power	Up to 80℃ for 60 min.

Application Properties:

To obtain optimal adhesion, the bonding surface must be dry and clean.

The ideal application temperature range is 20 °C to 40 °C. To apply tape on surface at temperature below 10 °C be not recommend, because the adhesive becomes firm to adhere lightly.

Test Method: In accordance with GB/T 4851-1998 method
